WARRANT FOR ANNUAL TOWN MEETING

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton, on Tuesday, the 8th day of March next, at nine o'clock in the forenoon to choose all necessary town officers and at 7:30 p. m. at the School Auditorium to act upon the following subjects:

1. To hear the reports of Town Officers, Agents and Committees and pass any vote relating thereto.

2. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

3. To see what action the Town will take in regard to real estate taken over by the Town for non-payment of taxes.

4. To see if the Town will vote to accept the budget as prepared by the Budget Committee or make any alterations relating thereto.

5. To see if the Town will authorize the Tax Collector to appoint a deputy or deputies, under the provisions of Chapter 41, Section 38, of the Revised Statutes Annotated of New Hampshire, or take any action relating thereto.

6. To see if the Town will vote to authorize the Tax Collector to charge an additional amount of twenty cents on each Poll Tax not paid by September first, for use of the Town as provided by statute.

7. To see what sum of money the Town will raise for the support of band concerts or take any action relating thereto.

8. To see if the Town will vote to authorize the Selectmen and Highway Agent to set up a set of rules and specifications to be used in laying out and accepting new town roads or take any action relating thereto.

9. To see if the Town will vote to change and amend the vote taken at the 1951 annual meeting relative to the Post War Fund, by adding after the words "Town Hall boiler and heating equipment" the following additional purpose to wit: and for the purpose of Police Cruiser, or take any action relating thereto.

10. To see if the Town will vote to purchase a truck for the Highway Department at a cost not to exceed \$4,000.00 to be taken from the Post War Fund or take any action relating thereto.

11. To see if the Town will vote to purchase a Cruiser for the use of the Police Department at a cost not to exceed \$1,400.00 to be taken from the Post War Fund or take any action relating thereto.

12. To see if the Town will vote to accept the present road known as Van Alstyne Road over the land of Hampshire Hills Farms Company to the land and property now owned by William P. Whiting, Jr., known as "Hillside", or take any action relating thereto.

13. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 to complete construction of Abbot Hill Acres Road, or take any action relating thereto.

14. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 to add to the \$500.00 raised last year for the purpose of purchasing and installing an adequate all-purpose alarm system, or take any action relating thereto.

15. To see what sum of money the Town will vote to raise and appropriate to defray Town charges for the ensuing year, including town officers' salaries, town officers' expenses, election and registration, municipal court, town hall maintenance, police department, fire department, including brush fires, care of trees, insurance, damage by dogs, civil defense, health department, vital statistics, sewer maintenance, town dump, bridges, town road maintenance, street lighting, resurfacing, town road aid, library, town poor, old age assistance, Memorial Day, aid to soldiers and their families, parks and playground, water department, cemeteries, hydrant service, water holes, jail, Monadnock Region Association, social security, interest on temporary loans and long term notes, sidewalk construction, temporary loans, payments on principal of fire truck, T.R.A., and fire station and county tax.

16. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 22nd day of February 1960.

FRED C. NELSON,
F. HOWARD BARDOL,
CHARLES O. McGETTIGAN, JR.,
Selectmen of Wilton, N. H.

The Town Report cover picture shows the float of the Wilton Plumbing and Heating Corporation in the Old Home Days parade last August 29. The oxen were owned by Steward Graves of Walpole, N. H., and are used each year in the Old Homestead production in Swanzey. Mr. Graves is driving the first team, and Jason Holt of Wilton, father of Guy M. Holt, part owner and operator of the Wilton Plumbing and Heating Corporation, is driving the front team. The wagon, made into a covered wagon by David Tuttle of Wilton, was originally built by the late Henry Gray of Gray's Corner over 70 years ago and is now owned by the Frye brothers of Abbot Hill. Mrs. Wesley Crooker and children are seated in the wagon attired in old fashioned dress secured from several old families of the town.

WILTON HIGHWAY REPORT FOR 1959

The year 1959 in general was a very good year for the Highway Department. In the winter we had an average amount of snow but also had an unusual amount of sleet and rain during the months of January and February. This was costly, as the cost of spreading bank run sand is approximately \$2 per cubic yard, and \$3 per cubic yard if washed sand is used. It also takes an unusual amount of salt, especially if the temperature is below 20 degrees. In 1959 we used an unusual amount of both sand and salt — 175 tons of salt and 550 cubic yards of sand. We had 86 inches of snow which came as follows: January, 13 inches; February, 23 inches; March, 33 inches and December, 17 inches.

The Summer Maintenance was about average, as we did not have any heavy rains or showers to wash the dirt roads. The summer months were taken up with cleaning of ditches, grading, cutting brush, patching of tar roads, cleaning village streets and graveling dirt roads.

Resurfacing (or tarring) was done mostly during the months of July and August, as the asphalt or tar mixes better with sand when the weather is hot and dry. This past year we resurfaced 7.30 miles of town streets and roads as follows: Wilton Center Road, 2.10; Grange Hall Hill, .70; Grays Corner, .50; Mason Road, .90; Badger Road, .80; Abbott Road, .60; High Mowing School, .20; Dale Street, .90; Whiting Hill, .20; Pine Valley Street, .20; Pleasant Street, .20. We used 17,000 gallons of MC3 asphalt.

For bridge repair this year, we renewed several guard rails and guide posts which were badly needed and also painted the same.

During the month of October we also rebuilt a section of sidewalk on Maple Street between the Town

Hall and Park Street, and another section at the beginning of Maple Street.

Recommendations For 1960

My recommendations to the Town for the year 1960 are:

1. That the Town set up a budget system whereby there will be money raised each year for the replacement of equipment, instead of having to raise the total cost in one or two years as has been done in the past. The Town will always have to have a certain amount of replaced equipment each year to maintain properly their highway and other departments.

2. That the Town raise one or two thousand dollars each year over and above the annual summer maintenance fund for the purpose of rebuilding the dirt roads that lead from the main highways (of which there are a large number). Most of these need to be widened and graveled, and also need new culverts for drainage purposes. The main highways are taken care of with the T. R. A. funds that the state appropriates for such purposes and which will again be available to Wilton in 1961. The last allotment was used under a new five-year plan, borrowing four years in advance, which proved to be very satisfactory, economically. But I do not foresee how any of this money could be used for the back roads on which there are only one or two homes, as the allotment for the next five or six years will have to be used to finish the main roads which we started in 1957. Also, there will be several roads by that time which will have to be rebuilt, for they are rough and narrow having been built a number of years ago without the proper amount of gravel to withstand the present-day travel of trucks and cars that use them today. The roads I refer to are Burton Highway, Badger Road, and the Abbot Hill

Road from the Chandler place on Abbot Hill to the Mason line.

3. Several streets in the village are badly in need of widening as they are all overloaded with cars for parking and moving equipment. Some of these I have been widening the past two years by filling in ditches and coating them with tar as much as possible.

We have three streets in the village which should and could be widened: Prince, Russell and Putnam Streets. Two of these have a sidewalk (Prince and Russell) but both of these sidewalks cannot be maintained in the winter months as there is no way to plow them or to get rid of the snow from the roads, and in the summertime very few persons use them, preferring to walk on the road. If these sidewalks were removed and the streets widened, there would be a gain in width of six to eight feet, making them better for year-round travel and maintenance, both for cars and pedestrians. In the summertime a sidewalk could be made with the yellow line system, which I believe could be very satisfactory.

New Equipment

This year I am asking for a 2½ ton truck to replace the one-ton truck we now have (which must be replaced). I am asking for the larger truck because of the many more demands for the larger truck during the winter months for plowing and sanding.

In 1961 we should plan to replace the large truck we now have, which will then be ten years old and which will have gone about 100,000 miles. We will have to secure another truck of four- or five-ton rating, which should be equipped with hydraulic lifts for plow wings.

We will also have to plan to secure some kind of

tractor with a loading shovel for gravel and for snow removal in winter. We have reached the point now where much of the snow in the village must be removed before another storm appears.

At this time I would like to thank my employees and all the townspeople who assisted the Highway Department during the past year. Your cooperation was greatly appreciated.

LAWRENCE A. GIBBONS,
Wilton Road Agent.

REPORT OF THE FIRE STATION BUILDING COMMITTEE

With the dedication of the new fire station on August 30, 1959, this Committee makes its final report. The keys for the new fire station having been turned over during the dedication to the chairman of the Board of Selectmen, Mr. Fred Nelson, by Norman Draper, representing the firm that built the building, the Abbott Machine Co., Inc. of Wilton, Mr. Nelson then turned the keys over to Fire Commissioner Clifford Schultz.

We wish to express our sincere appreciation to all who helped to bring this project to a successful conclusion.

William P. Whiting, Jr.

TOWN HISTORY REPORT

Work on the Town History for the years 1890 to 1960 has been lying dormant this past year for several reasons, mainly lack of interest among townspeople in preparing material for this book.

The Genealogy prepared by Miss Mary Frye has been completed and has been placed in storage at the Wilton National Bank. Histories of the Fire Department, Police Department and Libraries have also been completed and are at the Selectmen's Room.

This is a very small percentage of the material to be included in the History. Of more than 25 organizations in the town to be included, material on only four has been completed and received by the committee.

A second reason the committee have not been too active this year was the lack of interest in the purchasing of the copies of the old Town History. When this subject was brought up at the town meeting in 1956, much interest was shown in wanting copies; therefore 100 books were ordered made. Only 20 of these have been sold thus far. Anyone desiring one may get their copy from Mrs. Fred French at the Selectmen's Room or from the Town History Chairman. They are \$15 each, which was the cost of the preparation.

It is hoped that work on the new History will again start this spring, so that the book can be published in 1962, the 200th anniversary of the incorporation of the Town of Wilton. Volunteers would be gladly accepted, and it is hoped that those already preparing reports will complete them soon.

MRS. MILDRED GIBBONS,
Town History Chairman.

REPORT OF AUDITORS

We have completed our audit of the accounts of the various town officers for the year ending December 31, 1959, and find them to be correct and in order.

The records of the Tax Collector, Treasurer, Town Clerk, Judge of the Municipal Court, Trustees of the Trust Funds, Selectmen, Water Department and the Wilton Public Library were checked. The Town Officers' Bonds were also examined and found to be in compliance with the law.

The uncollected accounts of the Tax Collector and the Water Department were verified by sending individual notices to each debtor, this being the usual accepted practice.

It is our hope that the Water Department will insist on more prompt payment of water bills.

We wish to extend our thanks to the town officers for the cooperation received during the audit. Also, a big thank you to Mrs. Elizabeth French for her assistance whenever we called upon her.

Town of Wilton, N. H., February 4, 1960.

ROY E. CLAIRE,
ELNA D. STEVENS,
Auditors.

REPORT OF THE LIBRARIAN

For the Year Ending December 31, 1959

Number of volumes Jan. 1, 1959	9799

REPORT OF THE COMMITTEE APPOINTED TO STUDY THE TOWN OF WILTON ACCOUNTING SYSTEM

This committee wishes to report that at the present time its study of the Town of Wilton's accounting system is still in its preliminary stages.

Members of the committee have met with the Division of Municipal Accounting of the State Tax Commission in Concord in an effort to determine what systems are employed by other towns of comparable size. Other members have made inquiries through other channels to determine just what methods of control are used in other towns regarding the expenditure of town funds.

This coming year we hope to be able to meet with the Selectmen of the town to offer our constructive criticism and suggestions.

The Committee

MUNICIPAL COURT OF WILTON, N. H.
Financial Report for the Year Ending Dec. 31, 1959

Received:

Total fines, fees and costs collected on criminal docket, including bail and return of bail from Superior Court	\$1504 00

Cases Filed:

Criminal Docket	99
Small claims	30
Civil cases	15
Juvenile cases	8

Total Cases Filed 152

Respectfully submitted,

F. X. QUINLAN

Clerk, Wilton Municipal Court.

REPORT OF POLICE DEPARTMENT

As you all know, Wilton has not had any serious accidents this past year, but I would like to stress the danger of winter driving. Your Police Department reports that there were six more accidents than in 1958; carelessness and neglect were the factors in most cases. Again we emphasize caution and good judgement in operating a motor vehicle. We should all do our share and make safe driving a habit.

I would like to take at this time the opportunity to thank the members of the Wilton Police Association for the fine cooperation in helping to get the new Police Headquarters painted and ready for occupancy. We would be very pleased to show the townspeople our new headquarters at their convenience.

We are pleased to announce that Herbert Hodge, Jr., is a Special Police Officer and a member of the Wilton Police Association.

I wish to thank the Selectmen, merchants, State Police, members of the Police Department and townspeople for their fine cooperation this past year.

Respectfully submitted,

ROBERT O. WIGGIN,

Chief of Police.

Arrests	
Criminal cases	4
Drunks	10
Motor Vehicle Violations	69
Bicycles:

Dog Officer

REPORT OF WILTON FIRE DEPARTMENT — 1959

To Report a Fire, Call OL 4-5775

During the past year, we had no large fires. We had 35 calls:

17 Bell Alarms	
18 Still Alarms	
Mutual Aid	4
Resuscitator	3
Inspections	2
Dump	2
Chimney	8
Cars	3
Grass	3
Buildings	10

500 ft. of 2½ inch hose; 300 ft. 1½ inch hose; 1 1½ inch fog nozzle; and 1 Scott Air Pack were purchased this last year.

A hose rack was built for drying hose. The Town bought the material, and the work was done by the members of the Department.

We recommend for maintenance for the Department for 1960: \$6800 and \$500 Forest Fires.

I wish to thank the Commissioners and members of the Department for their cooperation.

WILFRID B. BERUBE, Chief
FRANKLIN EDWARDS, Asst. Chief
WILLIAM CLEAVES, Asst. Chief

REPORT OF THE FIRE COMMISSIONERS

The Fire Commissioners feel that 1959 was a very satisfactory year. We had very little fire loss due to the efficiency of the Fire Department.

The new fire station was dedicated on Old Home Day in a ceremony attended by many. The wheels on the Old Excelsior Hand Tub were repaired, so that

it could be entered in the parade and it is now housed in the fire station.

The equipment is now in good condition, with the exception of the Ford Pumper, which needs four new tires.

The Fire Department has purchased for new equipment: 500 feet of 2½-inch hose, 300 feet of 1½-inch hose, a 2½-inch nozzle and a Scott Air Pack. They have completed the hose rack and the sprinkler alarm system.

We are asking the Town for \$2000 for a new Fire Alarm System. This will go with the \$500, which was held over from last year. The Civil Defense gives matching funds to towns when the alarm system is to be used for Air-Raid purposes. The cost of the new alarm system will be \$5000, and we feel that it is imperative to the safety of our Town that we get it.

Respectfully submitted,

CHARLES O. McGETTIGAN, JR.,
CLIFFORD SCHULTZ,
LAWRENCE PARO,

Fire Commissioners.

Fire Prevention is Everybody's Business

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note.

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple —

1. Before burning, secure a permit from your local forest fire warden — the law requires it.

2. Be sure to properly supervise your burning.

3. Make certain your fire is DEAD OUT before leaving it.

4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.

5. Don't burn at home. Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires	1
Number of acres burned	1½
Number of permits issued	164

WINTHROP H. HANNAFORD,
District Fire Chief
WILFRID BERUBE,
Forest Fire Warden

REPORT OF OVERSEER OF PUBLIC WELFARE

Town cases paid on order from

Overseer of Poor \$1,339 20

As in other years, a great many people are receiving aid under various classifications, including Old Age Assistance, Aid for Dependent Children, Aid for Permanently Disabled. None of these accounts go through the office of the Overseer of Public Welfare.

FRED C. NELSON

REPORT OF WATER COMMISSIONERS

During the last year, as in other years, we have had to replace a great many services due to rust filling them.

Two new services have been added to houses on Abbot Hill Acres and two in trailers.

Both chlorinators have been overhauled during the year.

We found a large leak in the line going through the river, which was repaired.

ROY W. SMITH,
LYNN W. POTTER,
JAMES L. SHELDON,
Water Commissioners.

REPORT OF WILTON CIVIL DEFENSE

The Auxiliary Police, Radiological, and First Aid courses were completed with about 30 members in each course receiving certificates.

A successful alert test was held during the past year.

We have received State CD surplus army cots and several Geiger counters. A list of State CD surplus property will be on file in the Selectmen's room.

Several moving pictures on Fallout and Radiological Survival have been shown, and talks given by several State CD Officials.

On October 26th, a Hillsboro County CD meeting was held in Nashua; an Emergency Mass Feeding demonstration supper was served by the Nashua CD unit. Among the speakers were Senator Bridges, State Director C. A. Brinkman, and Hillsboro County Chairman, Mrs. Mary Carr. This meeting was well attended and Wilton CD made a very good showing.

The Wardens assisted the Police Department with traffic duty on Old Home Day.

Flags were displayed on December 7th, Pearl Harbor Day, and the schools were asked to hold exercises.

Dana Gingrass has built a Mobile Siren that can be used by the CD to warn residents in the rural districts in the event of a disaster.

All members have been alerted, in the case of a disaster or emergency, to proceed to their post of duty at the CD room in the Town Hall.

Regular meetings have been held the last Tuesday of each month, the townspeople were invited to attend. Several departments have held individual instruction and discussion meetings.

In closing, I wish to thank Mr. John Cowie and Mr. Frank Hutchinson for their assistance during my stay in the hospital; Mr. James Smith and Mr. Ira Stickney for their assistance and use of the moving picture machine; and State CD Officials and townspeople for their assistance and cooperation in this program.

W. W. ADRIAN,
CD Director.

REPORT OF WILTON YOUTH CENTER COMMITTEE

Goss Recreational Park was open to the public on a full scale basis last summer. The pool hours were from 1:00 p. m. to 8:00 p. m. daily.

Over 150 youngsters took part in the swimming and life-saving programs. The Committee were pleased to see many adults taking advantage of the pool last summer, over 20 adults were enrolled in the evening swim class. Instructors were Miss Nancy LaPonsie and Richard Rudis.

The bath house was completed and used last summer and many families used the picnic tables.

This summer plans are underway for cleaning the area and installing a dock and diving board.

The Youth Center Committee wishes to thank the citizens of Wilton and Lyndeborough for their contributions and assistance during the last year.

ANNUAL REPORT OF THE WILTON TOWN NURSE

The available services of a Public Health nurse in Wilton ensures professional care, on a part-time basis, in time of illness to its townspeople. Specific treatment and medication are given upon a doctor's request or prescription. Care of a new baby and mother may be given, or supervision and general care of any patient with a chronic disease.

Hypodermic injections to a patient or instructions to any member of a family in administration of the hypodermic treatment is a part of the health program.

Each year, in cooperation with the State of New Hampshire and its State nurse, free clinics are held. This year seven such clinics were held, consisting of:

- Pre-school clinics to immunize children in preparation for their first school year.

- Innoculations for polio and the "three-in-one" shots which include diptheria, tetanus, and whooping cough.

- Vaccination for smallpox given last May.

- Two adult polio clinics.

- Two clinics for booster shots for polio and the triple shots.

- Clinic for t. b. patch tests.

For the year 1959 there were 213 calls made in the town of Wilton. Of these calls, seven were for the purposes of health supervision, sixteen were for acute or emergency needs while the remaining 190 calls were on shut-ins and the chronically ill patients.

It has been a most successful year in the Public Health Nursing Service. The cooperation of our citizens and doctors has been such that we have been able to maintain the standards of good health to a high degree among all age groups in our town.

MARION R. HOWARD, R. N.,
Town Nurse.

REPORT OF THE SOUHEGAN RIVER WATERSHED STUDY

About two years ago the Hillsborough County Soil Conservation District requested that a survey be made of the Souhegan watershed to determine if the water flow from this watershed could be controlled and thereby losses and/or damage from "high water" be eliminated or measurably reduced.

The result of this request was a preliminary survey of the watershed totalling 171 square miles (including 8.8 square miles in Massachusetts) which suggested 16 or 17 possible dam sites (3 in Wilton) of a total of 26 investigated.

It was estimated that these dams would impound some 18,000 acre feet, would control about 44% of the watershed, would control rainfall in the 3 to 4 inch magnitude, and would cost, for dams only, approximately \$900,000 total. Land damage costs, etc. would be above this figure and a local problem.

A subsequent more extensive survey has indicated that should this project be completed there would be benefits as tabulated below.

DAMAGES (\$ VALUE) ON A 100 YEAR FLOOD BASIS			
TOWN	No Control	With Controls	
Greenville	\$15,000.00	\$5,800.00	
Wilton	\$103,000.00	\$14,000.00	(Island Area Protected)
O.K. Tool Area	\$40,000.00	\$18,000.00	Annual Average
	Annual Average		
Milford	\$19,000.00	\$ 1,000.00	Annual Average
	Annual Average		

Where originally the benefits to agriculture were expected to be quite attractive, investigation beyond the preliminary stage proved disappointing for this group. Briefly, the flat terrain on each river bank, and what amounts to a natural ledge dam in the Ponemah Section, prohibited, except by very expen-

sive methods, any satisfactory control means to reduce measurably the farm loss.

Generally the damage reduction in the watershed is quoted to be 62% except in the soil and farm area just mentioned where it is 9% and in the OK Tool section where the loss reduction is given as 38%.

These impoundments can serve a dual purpose if desirable from a local standpoint. Possibly some of them might be (and in some towns are being) considered as a source of potable water. In such cases the interested town would shoulder the expense of that portion of the construction and Engineering directly concerned with the supply. However, the actual construction of each phase could best be accomplished as one project. This particular use of one of the proposed sites in Wilton has been investigated in a very minor way, so minor as to leave undetermined as yet if there is any merit in the idea.

The Fish and Game Department is also active in this project in that they may realize additional facilities. Also the possible recreational facilities that might be offered have become attractive topics in some areas.

In conclusion, there appear to be benefits in the form of reduced losses if this program were completed as proposed. Whether or not the final combined Local and Federal costs versus the benefits will be attractive, the writer can't say, and since the project has yet to receive Federal and State approval, would suggest pursuit of a course of "wait and see" for the present.

Respectfully submitted,
ROY W. SMITH

WILTON OLD HOME DAYS REPORT

Wilton's Old Home Days held August 28, 29 and 30th were very successful although bad weather plagued the three days of activities.

The celebration opened with a Children's Parade Friday evening at the park, in charge of Mrs. Wilfred Pellerin, Miss Florence Rideout and Mrs. A. Paul Pike. Judges were former teachers of the Wilton Elementary school, Mrs. Edward Hickey of Suncook; Mrs. Francis Winn of Nashua and Mrs. C. Ray Joslin of Milford. There were over 90 entries in the parade. Those selected for prizes were, Doll Carriages, First, Linda and Michael Therreault; second, Martha Beaver; and third, Debra Ann Sweet; Bicycles, first, Gail Paro; second, Robert Blanchette; and third Harland Savage; Wagons and Carts, first, Stephen, Kathryn and Carol McGettigan; second, Gary and Ronald Tuttle; third,

Ralph Savage; Costumes, first, Michael and Richard Testa; second, Cynthia, Carl, Curtis and Christine Varney; and third, Victoria Stickney and Lindsey Kilgore. Honorable mention went to Virginia Tuttle.

Following the Children's Parade there was a concert by the Band of Ashby Massachusetts, which lasted until 10 p.m. with many desiring it to continue. The sports lovers had retired to Pine Valley Park where a softball game was played between the Abbott Worsted Terriers and the Pine Valley Athletic Association with the A.A.'s winning 15 to 13.

Saturday morning the activities opened with a sports program for the youngsters commencing at 9 a.m. under the direction of Roy Claire, Lucian Laponsie, Guy Foster and James Bowen. Harold Edwards of Temple took charge of the Marathon which followed the races. Entries in the Marathon came from five New England States as well as New York and Pennsylvania. There were a total of 60 entrants who started on the ten mile run which took them from the Park up the Lyndeborough road, to the Goss residence, thence back to the Davisville road, turning and going to Frye's mill, thence back to Wilton Center, by the Grange Hall to route 101 and back to the Wilton town entrance thence down Main Street to the Cut and back to the School, and the finish line at the Grandstand on the Park. Graham Parnell, a 29 year old carpenter of Stoughton, Mass., was the first across the finish line in 55 minutes and 22 seconds. Veteran Road Runner Johnnie Kelley of Arlington, Mass., came in second in 55 minutes and 55 seconds; Norman Higgins of Groton, Connecticut, was third with the time of 57:09 and Tony Sapieza of Boston was 4th with the time of 58:41; 5th, Gerald Harvey of Boston, 58:51; 6th, Allan Hall, Boston, 58:58 and 7th, Marvin Bryan of Philadelphia, Pa., who collapsed at the finish line and after being treated by Dr. Raymond P. Galloway

at the scene and given oxygen by the Fire Department chiefs was taken to the Nurses Office of the school and cared for during the remainder of the day by R.N. Mrs. Charlotte Pollock. He with 3 other fellows from Pa. had driven all night arriving in Wilton for the race at 7:30 a.m. The high temperature, bad humidity, as well as exhaustion caused by Wilton's many hills was believed the cause of his illness. He was well enough to return home that evening. Winner of the Governor's Trophy for first N. H. runner was Lucien Trudeau of Manchester in 26th place with a time of 69 minutes and 27 seconds. The Hillsborough County winner was Harold (Sleepy) Edwards of Temple in 69 minutes and 44 seconds. The last man of the race to come in took 90 minutes.

Officials in charge of the race were Walter H. Childs of Springfield, Mass., A.A.U. Commissioner of New England; Chairman and Starter was William Smith of Medford, Mass.; Official Timer was Lester Balcom of Malden, Mass.; Checker and Official Clerk, Robert Jones of Chicopee Falls, Mass. Wilton Boy Scouts did an excellent job of handing out water to the runners and directing them along the course. The runners were also greatly helped by residents along the route who passed them out water or sprayed them to cool them for which they were most grateful. They all gave great praise to Wilton people for the fine manner they were treated and asked to have a repeat of the race each year. Due to a bad thunderstorm which commenced at noon prizes were awarded in the Auditorium.

Main feature of the day was the Parade in the afternoon in charge of Samuel Proctor, Gilbert Testa, Eli Ruonala, and Alfred Jarest. Although heavy rains commenced as soon as the 42 floats and 28 other units were in line, there was no alternative but to continue

with the parade which many stated was the largest and best organized of many years.

Prizes were awarded as follows: Most Beautiful, first, Parker Farms; second, Mayflower Rebekah Lodge; third, The Color Shop; honorable mention, Talent Night Float; Most Original, first, Hillsborough Mills; second, Abbott Hill Acres; third, Imperial Order of Red Men and Pocohontas; honorable mention, the Island Beauties; Most Appropriate, first, Wilton Ski Club; second, Wilton Teachers Association; third, Wilton Highway Department; honorable mention Congregational Church Sewing Circle Group; Funniest, first, Abbott Machine Company; second, John Cowie; third, New Ipswich Fire Department and Honorable Mention, Pinnacle Mountain Fish and Game Club.

The heartbreaking part of the afternoon was that several merchants who had spent days and money preparing floats had them damaged too much by the rain to enter them in the parade.

Judges were former Superintendent of Schools, Newell J. Paire of Claremont; Mario J. Vagge, Mayor of the City of Nashua; Fred H. Dobens, Editor of the *Nashua Telegraph*; Mrs. Anna Marie Olschewsky of Radio Station W.O.T.W. of Nashua and Mrs. Helen Lagios of Nashua and Radio Station W.F.E.A. of Manchester.

Due to the heavy rains the scheduled Chicken Barbecue was postponed to Sunday afternoon.

In the evening more than 500 persons jammed the High School Auditorium for old fashioned and modern dancing to music by Larry Bartlett and his orchestra of Keene. Leo Pellerin and Francis Gros Louis were in charge of arrangements assisted by Clifford Schultz and the committee.

On Sunday there were special church services in all the churches in the morning and at 2 p.m. a dedication ceremony was conducted at the Fire Station.

Guest Speaker was Donald Holbrook, Chief of the Meadowbrook Fire Department of Fitzwilliam N. H. During World War II, Mr. Holbrook was chief of Fire Protection for the Division of Material Command of the Air Corps with the Rank of Major.

Norman Draper on behalf of the Abbott Machine Company, builders of the station, presented the keys and deeds of the station to Selectman Fred C. Nelson, who then presented them to the Fire Commissioners Clifford Schultz, Lawrence Paro and Charles McGettigan, Jr. Clifford Schultz then presented the keys to Fire Chief Wilfrid Berube for the use of the Department. Mr. Nelson on behalf of the Old Home Day Committee presented a new 49 star flag to Fire Chief Wilfrid Berube who had two boy Scouts, James Nelson and Garry Foster, raise it on the flag pole during the rolling of drums by the Milford Spartans and every one standing at attention.

A Drill Exhibition was then presented by the Civil Air Patrol Boys and Girls cadets of Manchester under the direction of Major Francis Hughes. The Milford Spartans then led the Cadets and audience back to the Whiting Park where they then put on a demonstration of precision marching.

Rain had begun to fall again but everyone stayed to enjoy a band concert by the Ashby Band under the Direction of Mr. Fred A. Bernhardt. The festivities closed with the Chicken Barbecue put on by the Lions Club.

A food concession was manned during the three days by the Pocohontas, Legion Auxiliary, Working Band, and Rebekah. A dinner was served Saturday noon by Charity Chapter, A.E.S. at the Town Hall and Sunday noon by the Second Congregational Church at the Town Hall with a dinner also at the Red House in Wilton Center served by the Wilton Center Unitarian Church.

During the three days there was an Industrial Exhibition in the Town Hall under the direction of Fred C. Nelson and Mr. Philip Potter of O. K. Tool Co. of Milford, of all Industries of the town which drew large crowds. Also there was an art exhibit by the N. H. Art Association at the Second Congregational Church Parish Hall under the direction of F. Stanley Hallett, Robert Ring and Mrs. A. Paul Pike. Members of the Garden Club supplied the floral arrangements and several ladies of the town served as hostesses during the time it was open.

Finances for the affair were in charge of Kenneth Dunham, Frank Hutchinson and Mr. and Mrs. Ira Stickney. As there were over 1000 buttons left from the 1954 Old Home Days, only 1000 new buttons were purchased and the old dates of the 1954 buttons were blocked out and 200 of them were sold.

Donald Rockwood was in charge of the band concert and Miss Carolyn Savage was instrumental in securing the Civil Air Patrol Cadets to give their demonstrations. Eli Ruonala, Kenneth Sargent, and Donald McGettigan were instrumental in getting the National Guard and Legion Posts to march in our parade and to display the big "Howitzer" gun during Saturday and Sunday. Many more townspeople worked on the planning and execution of the three day program which space does not permit to be mentioned. For their co-operation your Co-Chairmen are most grateful.

To defray expenses of some of the advertising and programs of the affair, business advertisements were solicited. This was done very hurriedly; a few were not approached as they were away when this was done and therefore were slipped by. This was not intentional and our apologies go to those who were not contacted. Everyone who was approached, very generously did advertise to which we were most grateful.

In closing, our sincere thanks to everyone for the

fine cooperation and enthusiasm which was displayed before and during the affair.

It has been suggested another celebration be held five years hence. The town will be 225 Years Old in 1964. In 1962, Wilton will celebrate its 200th Anniversary of Incorporation. With these two dates in mind it is felt by the committee that money should be set aside each year so that at least \$1,000 would be given a committee to start plans for these affairs; as the cost of buttons alone this year increased in price by ten dollars. In 1954 they were \$59 per 1000 and in 1959, \$69 per 1000. A new banner will have to be made as the old one used in 1954 and again in 1959 is worn badly but has been stored away in the event it has to be used again.

A special thank you should go to the Southwestern N. H. Transportation Company Inc., now Law Motor Freight, Inc., and Capitol Trucking Company for the use of their trailer truck bodies for the grandstand, also the Everseal Vault Company of Weare for the use of the large tents for the band concert.

Mrs. Mildred Gibbons,
Fred C. Nelson,
Co-Chairmen
Wilton Old Home Days.

SYNOPSIS OF ANNUAL TOWN MEETING

March 10, 1959

The polls were open at the Town Hall from 12 noon until 6:30 p.m. with the discussion of the articles in the warrant being held at the High School Auditorium at 7:30 p.m., with large attendance. A special guest at the meeting was Edgardo Sogno of Milano, Italy, from the Political Section of the Ministry of Foreign Affairs of Italy, a career diplomat with the rank of Counselor of Legation, who is studying this country's affairs.

Action on the articles in the warrant was as follows:

Article 1: The reports of Town Officers, Agents and Committees, and the corrected 1957 balance sheet as printed in the Town Report, were accepted as printed. The following officers were appointed:

Library Trustee: Roy W. Smith

Auditors: Mrs. Elna Stevens and Roy Claire

Corders of Wood: The old board

Surveyors of Lumber: Victor Tuttle and Philip C. Heald, Jr.

Surveyor of Masonry: Leroy Tuttle

Article 2: Bent-Burke Post No. 10 American Legion was granted free use of the Town Hall for Memorial Day exercises.

Article 3: The Selectmen were authorized to borrow money in anticipation of taxes.

Article 4: The matter of real estate taken over by the Town for nonpayment of taxes was left to the Selectmen.

Article 5: Regarding the accepting of the budget as prepared by the Budget Committee. It was voted to take up this article with No. 10.

Article 6: The Tax Collector was authorized to appoint a Deputy or Deputies.

Article 7: The Tax Collector was authorized to charge an additional amount of twenty cents on each Poll Tax not paid by September 1st.

Article 8: The following motion was presented by Samuel G. Proctor and passed: "I move that the Town authorize the Selectmen to convey by proper deed to Charles B. Sullivan a right of way over a strip of land six feet wide in said Wilton running from the westerly side of Main Street along the northerly boundary of land of said Sullivan to the Souhegan River."

Article 9: Regarding conveying to the First Unitarian Congregational Society of Wilton Center, the tract of land upon which the Unitarian Church building now stands. The following amendment was presented by Mrs. Mildred Gibbons: "Amend-

ment: To see if the Town will authorize the Selectmen to convey, by proper deeds, to the First Unitarian Congregational Society and Advance Grange of Wilton Centre, the tract of land upon which the Unitarian Church building and Grange Hall now stands in said Wilton Centre, bounded on the north and west by land of Mrs. Francis J. Moors, on the east by the highway leading past said church and the Grange Hall, and on the south by land of Miss Alice Dean Spalding; the dividing line between the church building and Grange Hall to be a line running an equal distance between the northly wall of the Grange Hall and the southerly wall of said church building, upon which tract the Society and Grange now has a ninety-nine year lease, or take any action relating thereto." She then added to the motion that the Town retain a right of way to the Town Pound located in back of the Unitarian Church. The motion and its amendment were passed.

Article 10: It was moved and seconded that the Budget be accepted as suggested by the Budget Committee (as printed in the Town Report), but after considerable discussion and an appeal for more funds by Highway Agent Lawrence A. Gibbons the motion was amended by the addition of "excepting the highway department items." This amendment and the motion were both passed by standing votes. Then Mr. Gibbons moved that the summer maintenance amount be \$12,000; this was passed by a standing vote. He moved that winter maintenance be \$15,000; the resurfacing item be \$6,500 as printed; Selectman Charles O. McGettigan, Jr. moved \$965.13 for Town Road Aid; Mr. Gibbons moved \$500 for bridges as printed; with these motions all passed by voice votes.

Article 11: John K. Whiting, Jr. offered the following motion: "I move that a committee of nine be appointed by the Moderator to determine the needs of the town as to proper bookkeeping procedures which would include a study of the methods of payments and receipts made by the various departments to ascertain if any moneys are due the town for past services. To make any recommendations relating thereto and to report at the next annual meeting." This was passed. The meeting was adjourned shortly before 10 p.m.

The count of ballots resulted as follows:

Selectman for 3 years:

Charles O. McGettigan, Jr.	463
Charles M. Abbott	2
Frank H. Bardol	2
John W. Cowie	2

John H. Drayton	1
Samuel G. Proctor	1
Omer J. Shea	1
Richard D. Greeley	1
William P. Whiting, Sr.	1
Edward Abbot	1
Selectman for 2 years:	
Frank H. Bardol	265
John W. Cowie	237
W. L. Stanton	1
Lawrence Putnam	1
G. G. Draper, Sr.	1
Treasurer:	
Samuel G. Proctor	482
Isador A. Bucko	1
Patricia Tighe	1
Town Clerk:	
Kenneth R. Dunham	483
Highway Agent:	
Lawrence A. Gibbons	441
James L. Sheldon	5
James Tuttle	5
Donald McGettigan	3
James V. Tuttle	2
Frank H. Bardol	2
Charles O. McGettigan, Jr.	1
Francis Paro	1
Charles Mayer	1
Charles Frye	1
Elmer Draper	1
James Hurley	1
Water Commissioner:	
Lynn W. Potter	462
Roy Smith	1
Roland Brochu	1
Trustee of the Trust Funds:	
Frank H. Bardol	429
Samuel G. Proctor	2
John W. Cowie	2
Lawrence Putnam	1
Charles H. Frye	1
Earl W. Watts	1
Parks and Playgrounds Commissioner: (All write-ins)	
Roland Brochu	16

John H. Drayton	15
Samuel G. Proctor	8
Robert J. Stanton	6
Charles Dierksmier	5
Fred C. Nelson	4
Duncan L. Tocher	3
Guy Draper	3
Roy Smith	2
Frank H. Bardol	2
Lawrence A. Putnam	1
Charles B. Sullivan	1
Earl W. Watts	1
John F. Burke	1
Paul Kennedy	1
John W. Cowie	1
Elmer Draper	1
Arthur C. Atwood	1
Salvatore Crisafulli	1
Andrew Fulgoni	1
Norman Draper	1
Charles Mayer	1
Raymond LaPonsie	1
Lawrence A. Gibbons	1

Holiday: May 30

Teachers' Convention October 20 and 21

Total Number of School Days 180

Total Number of School Weeks 37

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of
Wilton qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall
in said district on the fifth day of March 1960, at 7:30
o'clock in the afternoon, to act upon the following sub-
jects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the
ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the
School Board and Truant Officer, and fix the compen-
sation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Com-
mittees, or Officers chosen, and pass any vote relating
thereto.
7. To choose Agents, Auditors and Committees in
relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise
and appropriate for the support of schools, for the
salaries of school district officials and agents, and for
the payment of statutory obligations of the district, and
to authorize the application against said appropriation
of such sums as are estimated to be received from the
state foundation aid fund together with other income;
the school board to certify to the selectmen the balance
between the estimated revenue and the appropriation,
which balance is to be raised by taxes by the Town.

9. To see if the District will vote to raise and appropriate a sum of money for the purpose of establishing an additional class room utilizing space available within the High School Building, and to authorize the School Board to issue Serial Notes in the name of and on the credit of the District, for said sum in accordance with Chapter 33 of the N. H. Revised Laws, subject to any state or federal grants available in the future and applicable to this Article, said Serial Notes to be obtained on such rates or terms as may be deemed advisable by the School Board.

10. To see if the District will vote to raise and appropriate a sum of money for the purpose of paying off first year's interest on the above Notes, or take any action relating thereto.

11. To see if the District will vote to authorize the School Board to make application for and to accept on behalf of the District any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

12. To transact any other business that may legally come before the meeting.

Given under our hands at said Wilton this 15th day of February 1960.

RAYMOND A. LaPONSIE,
DAVID WRIGHT,
EARL WATTS,

School Board.

SCHOOL BOARD'S ESTIMATED BUDGET 1960-61

School Board's statement of amounts required to support public schools and meet other statutory obligations of the district for the fiscal year beginning July 1, 1960 and comparative analysis of expenditures.

SUPERINTENDENT'S REPORT

To the School Board and citizens of Wilton, I respectfully submit my third annual report as your Superintendent of Schools.

Staff and Instruction

The Wilton Schools opened this Fall with a greater change of staff than has taken place in the last fifteen years. Seven changes in faculty were made. Mrs. Helen Witty of Mont Vernon, New Hampshire, a graduate of the University of New Hampshire in Home Economics, was hired to fill the vacancy in the sixth grade which existed when Mrs. Joanne Grasso resigned to move with her husband to Portsmouth, New Hampshire. Mrs. Witty has had five years of teaching experience at the sixth, seventh and Senior High School level, all in New Boston, New Hampshire. Mr. Arthur Dunn of Lynn, Massachusetts, a recent graduate of Salem Teachers College, was hired to fill the vacancy which existed when Mr. Salvatore Grasso resigned his High School Social Studies position to teach in the Portsmouth school system. It was with considerable regret that the School Board accepted the resignation of Miss Ruth Lange, Commercial teacher and Girls' Coach for the past eight years. Wilton High School was extremely fortunate to have been able to hire a very capable and well experienced replacement in Miss Virginia Hallisey of Biddeford, Maine, who has had five years of teaching experience at Appleton Academy

and Beebe Junior High School in Malden, Massachusetts, as well as considerable practical business experience. Miss Hallisey graduated from Plymouth Teachers College. The girls' coaching position was filled by an experienced Physical Education teacher, Mrs. Robert Stanton. Mrs. Helen Dwire of Lyndeborough, a graduate of Keene Teachers College, with seven years of teaching experience at Alvirne High School, Hudson, New Hampshire, Byers High School in Byers, Texas and the Central School in Lyndeborough, was hired to fill the vacancy which existed in the Home Economics Department when Miss Anne Callahan assumed a position as guidance counselor at Goffstown High School. Mr. Nathan Koppel of New Britain, Connecticut, a graduate of Boston University, was hired to fill the Junior High Math and Science vacancy which existed when Mr. Robert Bushey resigned. Mr. Koppel also assumed responsibilities as varsity basketball and soccer coach. Mr. Robert Cutter of Franconia, New Hampshire, and a recent graduate of Keene Teachers College, was hired to fill the High School Science vacancy which existed when Mr. Nathan Silverman left the teaching profession to go into private business. Mrs. Eunice Marshall requested a leave of absence for a year to pursue studies at the University of Massachusetts made available by the United States Government to experienced teachers to increase their proficiency in teaching Foreign Languages. Mrs. Joan Calkin of Greenville, New Hampshire, a graduate of the University of New Hampshire specializing in English and Languages, was hired to fill the vacancy caused by this resignation.

In spite of the many changes which have been made in the staff, Wilton is exceedingly fortunate to have found replacements of the quality and caliber represented by the teachers noted above. All of these teachers, even those with little experience, have done

very well in handling the extra heavy load, which was really designed for teachers of more extensive experience than that which is generally found within this group of new teachers. Much of the credit for the quality of this staff should go to the School Board for their careful attention to the selection of promising instructors. The remainder of the staff continues intact as noted below.

Mrs. Joseph Desrosiers teaches grade one, Mrs. William Cullinan - grades one and two, Miss Mabel Shea - grade two, Miss Nora Hurley - grade three, Mrs. Alfred Wells - grade three, Mrs. Wilfred Pellerin - grade four and Miss Florence Rideout - grade five and Principal of the Elementary School.

In the High School, Miss Mary Hurley teaches Junior High Social Studies and English, Mrs. William Hurley - Junior High School English, French I and Elementary French grades four, five and six, Mrs. Carl Shaw - Junior High School English, Math, History and Science, Mr. Ralph Dwire - Shop, Mr. Carl Shaw - High School English, Psychology, Science 8, and Biology and Mr. James Smith - Senior High School Mathematics. Miss Ethelyn Edwards continues as Music Supervisor and Teacher and Mr. Edward Hamilton as Instrument and Band Instructor. Mr. Ira Stickney continues to act as Principal of the building and is instructor in Guidance at the High School level. It should be noted that this year one teacher from the elementary level has been transferred to the Junior High School level to take care of the increased enrollment there. The Health Department is capably handled by Dr. Edward Sheris, School Physician, and Mrs. Marion Howard, School Nurse.

The High School staff under the capable leadership of Mr. Stickney has embarked upon a pattern of evaluation of the High School program and instruction. This is important in any type of endeavor, but most par-

ticularly in a school. It is hoped that in the Fall of the coming school year, a visiting committee will also evaluate practices and procedures within the school. Better education has resulted in every school evaluation of this type. Such an evaluation is required of High Schools if continuance of membership in the New England Association of Colleges and Secondary Schools is to be permitted.

The curriculum of the High School which has been in a state of change for the last four or five years to strengthen and improve the program in both the academic and the non-academic areas has this year reached a stage which should not require but minor changes over the next several years. At this time, in grades seven through twelve, some 80 different courses are being offered within the High School with the probability that only Home Economics I (grades nine and ten) and Home Economics II (eleven and twelve) will be combined, which will reduce the net number of courses to 78. It is felt, however, that all of these courses are necessary to adequately train children for the world in which they are going to live, whether it is planned to terminate schooling at High School or continue beyond. Listed below are the courses as contemplated at this time.

Ninth Grade

English 9A and B
Civics 9A and B
Science 9A and B
Geometry 9
Junior Business

 Home Economics 7A, 7B
 Shop 7A, 7B
 Conversational French
 Music

During this present school year the teachers of the High School have absorbed an additional load as compared to the load which has existed in the past. This additional load, coupled with the fact that a good percentage of the High School teachers were comparatively inexperienced, has seriously affected the educational progress which has been made. It is true that, with the veteran staff of teachers that the program load was arranged for, satisfactory progress might have been made but after exploring this arrangement for one year it seems that it is an uneconomical expenditure of time and funds, definitely not in the best interests

of children. In view of these conclusions, it seems advisable to recommend a return to the regular type of teacher program which has been the vogue in the past, namely, that of teaching generally five class subjects. In order to do this in the coming school year, it will be necessary to add one teacher to the High School staff, an action which now seems to have been the advisable thing to have done for the present school year.

At the elementary level, it is also recommended that one additional teacher be hired. This recommendation is prompted by the fact that there will be 41 children at the sixth grade level in 1960-61, which is more than had been anticipated previously and also 43 children at the first grade level. The 41 children at the sixth grade level cannot be permitted to be in one class with one teacher by State School Board Regulations and the large number in the first grade requires the definite splitting of that group into two first grade sections. These enrollment figures indicate a definite need for one additional teacher.

These two additional teachers, one at the elementary and one at the secondary level, it is felt, will take care of the staff needs satisfactorily, at least until 1963-64, and perhaps even after that time depending upon enrollments from Lyndeborough, which at this time cannot be accurately predicted because of the present High School construction program taking place in a nearby community which may attract many of these children.

In order to adequately house the additional classes made necessary by the hiring of two additional teachers, one additional room is necessary, the provisions for which are discussed later in this report.

Late in the fall after considerable study and inquiry, material was placed within the elementary school called a Reading Laboratory. This material is

designed to strengthen speed and comprehension of reading by children in grades four, five and six and is being utilized this year as a sort of experimental procedure. The beauty of this device is that it is designed to aid and assist pupils at all reading levels within a given grade, the high and the low. In the past, most devices concentrated their efforts singularly upon the slow readers. An additional feature of this material is that it places each pupil in competition with himself rather than with the class as a whole. In the initial stages of this program readings are made daily in a manner that encourages children to try to improve today upon the records made yesterday. Even with the limited use of this material up to this point, the program gives evidence of results which will insure that every child will read up to the limit of his abilities, a goal long strived for.

The effects of the National Defense Act passed on September 5, 1958 and discussed in last year's report were felt within the community this present year. Under Title III, which provides funds for the strengthening of instruction in the areas of Math, Science and Foreign Languages, the sum of \$800 was made available to the School District during this present year and will be continued to be made available for the next two years. The School Board voted to expend Wilton's share of these funds to support the costs of renovation of the old Library within the building into a Junior High School Science and Biology room. This action has been taken and the citizens of the town are encouraged to visit the room and see the manifestations of this important National Legislation. It is planned to utilize funds that become available during the coming year to make improvements within some classroom that would lend itself to modern methods of teaching Foreign Languages, namely the aural-oral method. Wilton will be exceptionally fortunate in having a

teacher well qualified in this area, namely Mrs. Edward Marshall, who is presently being trained to provide this kind of instruction. Incidentally, the National Defense Education Act is providing the funds for the education which she is currently receiving.

Upon the termination of the funds made available by the present Act, it is expected that additional Federal Legislation will be passed, continuing and even expanding services available to public schools through Federal funds.

Building and Grounds

The building and grounds are generally in good condition. A regular repairing and maintenance program relative to the building is being followed in the interest of long term economy. Additional painting is being provided within the building in keeping with the general pattern, of painting to some extent each year. Additional expenditures are being made this year as evidenced within Item 14 of the budget. Thoroughly cleaning and scrubbing the fuel tank that feeds the new boiler room is one such expenditure. It is also necessary this year to flameproof the Auditorium curtains and to purchase oil tank solvent which reduces general repairs and improves the efficiency of operation of the oil burners.

As far as the grounds are concerned, the only problem is the general limitation of playground space that become more acute each year as space remains the same while pupil enrollment increases slowly but steadily. Fencing which was put up last year around the tarred playground space has proved to be a satisfactory improvement and has provided an additional factor of safety for this congested area.

Due to the need for an additional room within the building, during this present year it was necessary to close the room that was being used as a Library and convert it to a Science Laboratory. The Library now

located in Room H is really too small for adequate use as a library. The Library facilities of the school continue to be a marked weakness and indicate a distinctive limitation to quality education.

Due to the addition of two teachers to the staff, as is being recommended, additional space is needed for classrooms and it is contemplated to provide that space within the confines of the old building. It is hoped to carve this classroom out of the main entrance-way of the old building through the use of space in the entrance-way and closets on each side of the entrance-way which would provide sufficient space for a medium sized classroom. The costs involved in such renovation are less than any other plan which would provide a like amount of space. As has been indicated, this classroom would take care of the space expansion needs at least until 1963-64 and perhaps even after that time. This additional space is a critical need and without it the type of program that is planned at all levels within the school would have to be seriously curtailed and as a result, the education being provided children of Wilton would be definitely second-class. The need for this additional space is being provided for by an Article within the Warrant which it is hoped the District will act on favorably. The cost for this additional room can be absorbed with an actual decrease of \$2,000 in the budget as a whole because of the fact that principal payments on one loan are being terminated as of December 28, 1960 and initial principal payments on this expansion would not become due until after July first, 1961.

Special Articles

Article 9 authorizes the School District to raise a sum of money for the construction of the additional classroom. At the time of this writing the exact costs of this renovation are not known but will be known by the time of the District meeting. It is hoped that

by School Meeting date, bids will have been sent out and returned so that costs will have been definitely determined for the renovation of this area. At this time, it seems that the costs will be in the vicinity of Five to Six Thousand Dollars.

Article 10 requests the School District to raise a sum of money for paying off the first year's interest on the above note made necessary by the construction contemplated.

Article 11 gives the School Board permission from the District to receive funds made available to it through the National Defense Education Act and any State funds which might become available.

Finance

The total amount to cover the School Board's total appropriation amounts to \$177,466.01, an increase of \$14,569.65 over the amount which was raised and appropriated at the last School District meeting. Due to an increase in Estimated Income for the year 1960-61 over that estimated for the present school year, of \$1472.05, the expected total school assessment for 1960-61 anticipated is \$152,076.01, an increase of \$13,-112.60 over the assessment approved by the State Tax Commission for the current school year. The major area of increase within the budget lies within the area of Teachers' Salaries. Most of this increase is accounted for by the addition of two teachers to the staff, the remainder of the increase being due to increments provided for teachers to raise them to some extent to levels somewhere near those being provided teachers in nearby areas. An increase of \$2,003 in Items 7 and 8 is accountable to a transference of funds formerly budgeted in Item 18, and additional money being provided to take advantage of the opportunities under the National Defense Education Act. In Item 14, an increase of \$668.50 is accounted for by the unusual expenditure of cleaning the oil tank, purchase of oil

tank fluid, adequate flameproofing of curtains and the need for additional budgeting for the purchase of wax, penetrating seal and paint. Increase in Item 19 is partially due to a relocation of teachers' Social Security from Item 20 to Item 19, an additional increase being made necessary by the addition of teachers and the increment for salaries. In Item 23, an increase of \$1076 is felt necessary to make several needed purchases — 25 chair and desk units for additional enrollment, three typewriters to replace those being turned in as has been the pattern for many years, one floor mat, two folding tables and expenditures for laboratory equipment and shop equipment. Increase in Item 4 of \$407.46 is made necessary by increases in salaries for Union Secretaries and is also accountable by the fact that increased enrollment in Wilton requires that they bear a slightly greater share of Union expenses.

Areas of decrease within the budget are in Item 12, where a saving is made in Fuel due to a favorable bid received. In Item 18, a decrease of \$620 is due to a relocation of items that were formerly contained within this item in the budget to Item 6 and Item 8. Item 22 decreases by over \$2,000 because in the present school year funds were budgeted for the renovation of a room into a laboratory.

A slight increase in income is anticipated due to Federal Aid expected during the coming school year and a slight increase in Tuition payments, caused by additional youngsters attending on a tuition basis, and an increase in the High School tuition cost per pupil from \$320 to \$350 per pupil.

Conclusion

The Wilton School Board has worked very hard and conscientiously to provide sound education for children, yet with a sensitivity to being economical in the usage of funds. This is no simple task, since false economies

resulting in limitations of education are ever up for consideration.

The cooperation and understanding received from the Board, Mr. Stickney and the staff, parents, friends and members of the Town Budget Committee are sincerely appreciated and a source of encouragement in efforts being made to provide sound education for children.

KENNETH A. SARGENT,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF WILTON HIGH SCHOOL

It is again a pleasure to report to the people on your High School. On the whole, I feel your High School has served its purpose in a commendable fashion. There are a few areas however which need mention and action of some nature in the very near future.

Testing

Wilton continued with the National Merit Scholarship program and again this year can feel quite happy with our record. Two members of our Senior Class qualified for Letters of Commendation ranking in the 99th percentile nationally. The program is being continued on all levels for guidance purposes.

Our last year's eighth grade participated in an eighth grade state program of achievement testing and fared very well indeed as compared with other eighth grade students in New Hampshire.

The results of the above programs appear to indicate that Wilton is providing a basic education and anyone who has the desire to achieve, can do so.

Shop Program

Our shop program has finally been converted from Woodworking and Mechanical Drawing to a more adequate General Shop. This program now allows for some work in woodworking, machine shop, metal work and auto-mechanics. The Mechanical Drawing course has been made a required part of whatever area is under study at any one time.

Space is still a problem in the shop and appears to be one which will remain with us in the immediate future. This involves more than just "room enough." It entails a number of other conditions such as lighting which is entirely inadequate and the fact that supervision is almost impossible because of the layout. Some

areas around corners and in cubby holes make observation impossible.

Library

The High School library is one of the areas that was mentioned in last year's report as one which would become inadequate because of space. This is the case at present and appears to be another area where no immediate remedy is in sight. The library had to be moved to room H, a very small room, completely inadequate for the purpose.

Four faculty members have been listing and marking books according to the Dewey Decimal system as time has allowed and some progress is beginning to be evident in that respect.

It is my feeling that this area is one of the most vital to education and for which a great deal of study is in order.

New Biology Lab

During the past year Room E has been converted from the library to a Biology Lab. Twelve new tables for two people each, equipped with gas outlets and electrical outlets, have been installed and are in use. An instructor's table with gas, water and electrical outlets has also been installed and these new units have greatly added to our program.

Changes in Program

The courses mentioned in last year's report have all become a reality at Wilton and at this point are working very satisfactorily. It is hoped that they may be continued.

These courses are as follows: Psychology was added in the twelfth grade for those students who had no desire or background for Physics. It seems that this course might well involve a half year of Economics in the future.

Algebra I, and Latin I, added to the eighth grade

are working satisfactorily and in time will provide more preparation for college-bound students.

In the coming year it is hoped that Latin II will be added for the ninth grade.

Oral French has worked well this year in grades four, five and six and we hope it will be extended to the seventh grade on an elective basis.

There seems to be a trend, at this point, in Wilton which would certainly bear some study. Our non-academic courses have gradually been losing ground in numbers electing and our academic or college preparatory courses have, in turn, shown a decided increase in numbers electing.

There could be many reasons for this, among the more obvious are the added emphasis in our times on science, sputnik, languages and mathematics. Education and its place in today's news is being brought to the attention of many more people, in particular the people who are being educated. The fact that more and better education is, today, and will be more so tomorrow, the passport to success, is becoming an accepted fact to more and more of our young people.

If this is the case, and I sincerely believe it is, it implies a responsibility, beyond what has been accepted previously, to be accepted by the people of Wilton to decide what we want and how badly we want it.

I wish to say thank you to the Wilton School Board, Mr. Sargent, Mrs. Stevens and the Citizens of Wilton who have helped our schools in the past year.

A thanks also to the faculty, custodians, and students for their support and cooperation.

Respectfully submitted,

IRA A. STICKNEY,
Principal.

SCHOOL NURSE REPORT

School health education is a vital part of the whole educational process by which each child in school is guided and helped in his efforts to achieve his highest potential. It is customary to define the three large-scale operations in a school health program as: the provision of health instruction, the provision of health or medical service, and the provision of conditions conducive to healthful living in school.

The school nurse daily sees children when they come to the medical room for health examinations, and when they are sent to her by the teacher after the early morning health inventory or for an injury or illness occurring during school hours. At such times every attempt is made to see that the student not only receives the necessary attention, but also suggestions as to how the mishap might have been avoided, or why cuts and scratches are cared for with aseptic precautions.

A large part of the school nurse's time is spent in guiding and encouraging parents in their efforts to get their children's defects corrected or to provide the best possible condition for their healthy development.

Each school month a specific health project is undertaken in the Wilton School. Such projects include the annual eye examinations by the Keystone Visual Method and the hearing tests conducted with the aid of the Maico Audiometer. Physical examinations are given regularly by the school physician, Dr. Sheris, to all members of the various athletic teams and school personnel. Dr. Roy, the school dentist, is in attendance for the dental clinic. Tuberculosis patch tests are given each spring and read by the State Tuberculosis Nurse, Mrs. Burchell.

Routine procedure during the school year is the periodic recording of weight and measurement checks for the growth development records for each child.

Although the responsibility for each child's development is shared by the home and school, it is important that the child feel at all times that both these important forces in his life are working together for his benefit and welfare. That is why it is important for school and home to work together with singleness of purpose, in helping individual children to reach the highest possible degree of all-around development.

It has indeed been a pleasure to work with the personnel and children of the Wilton school during the past year.

Summary of Health Supervision

Physical Examinations by School Doctor,
assisted by School Nurse.

Number examined 382

MARION R. HOWARD, R. N.,
School Nurse.

**REPORT OF
SCHOOL NEEDS STUDY COMMITTEE
TO
THE WILTON SCHOOL DISTRICT MEETING
OF MARCH, 1960**

By vote of the 1959 District Meeting, the Study Committee was continued and ordered to report its findings and recommendations to the 1960 Meeting.

To review for a moment, it will be remembered that the Committee recommended to the 1959 Meeting that consolidation of the Wilton School District be effected with Milford and other towns in the area, so that a truly comprehensive and challenging high school program would be available to Wilton students. The action of Milford voters at their 1959 School District Meeting closed the door on any realistic possibility of consolidation in the near-term future.

The Committee is still of the opinion that the consolidated school would be the best answer to the Wilton school problem, and therefore recommends that a close watch be kept on our neighboring communities so that, if and when at a later date, the possibility again occurs Wilton will be ready.

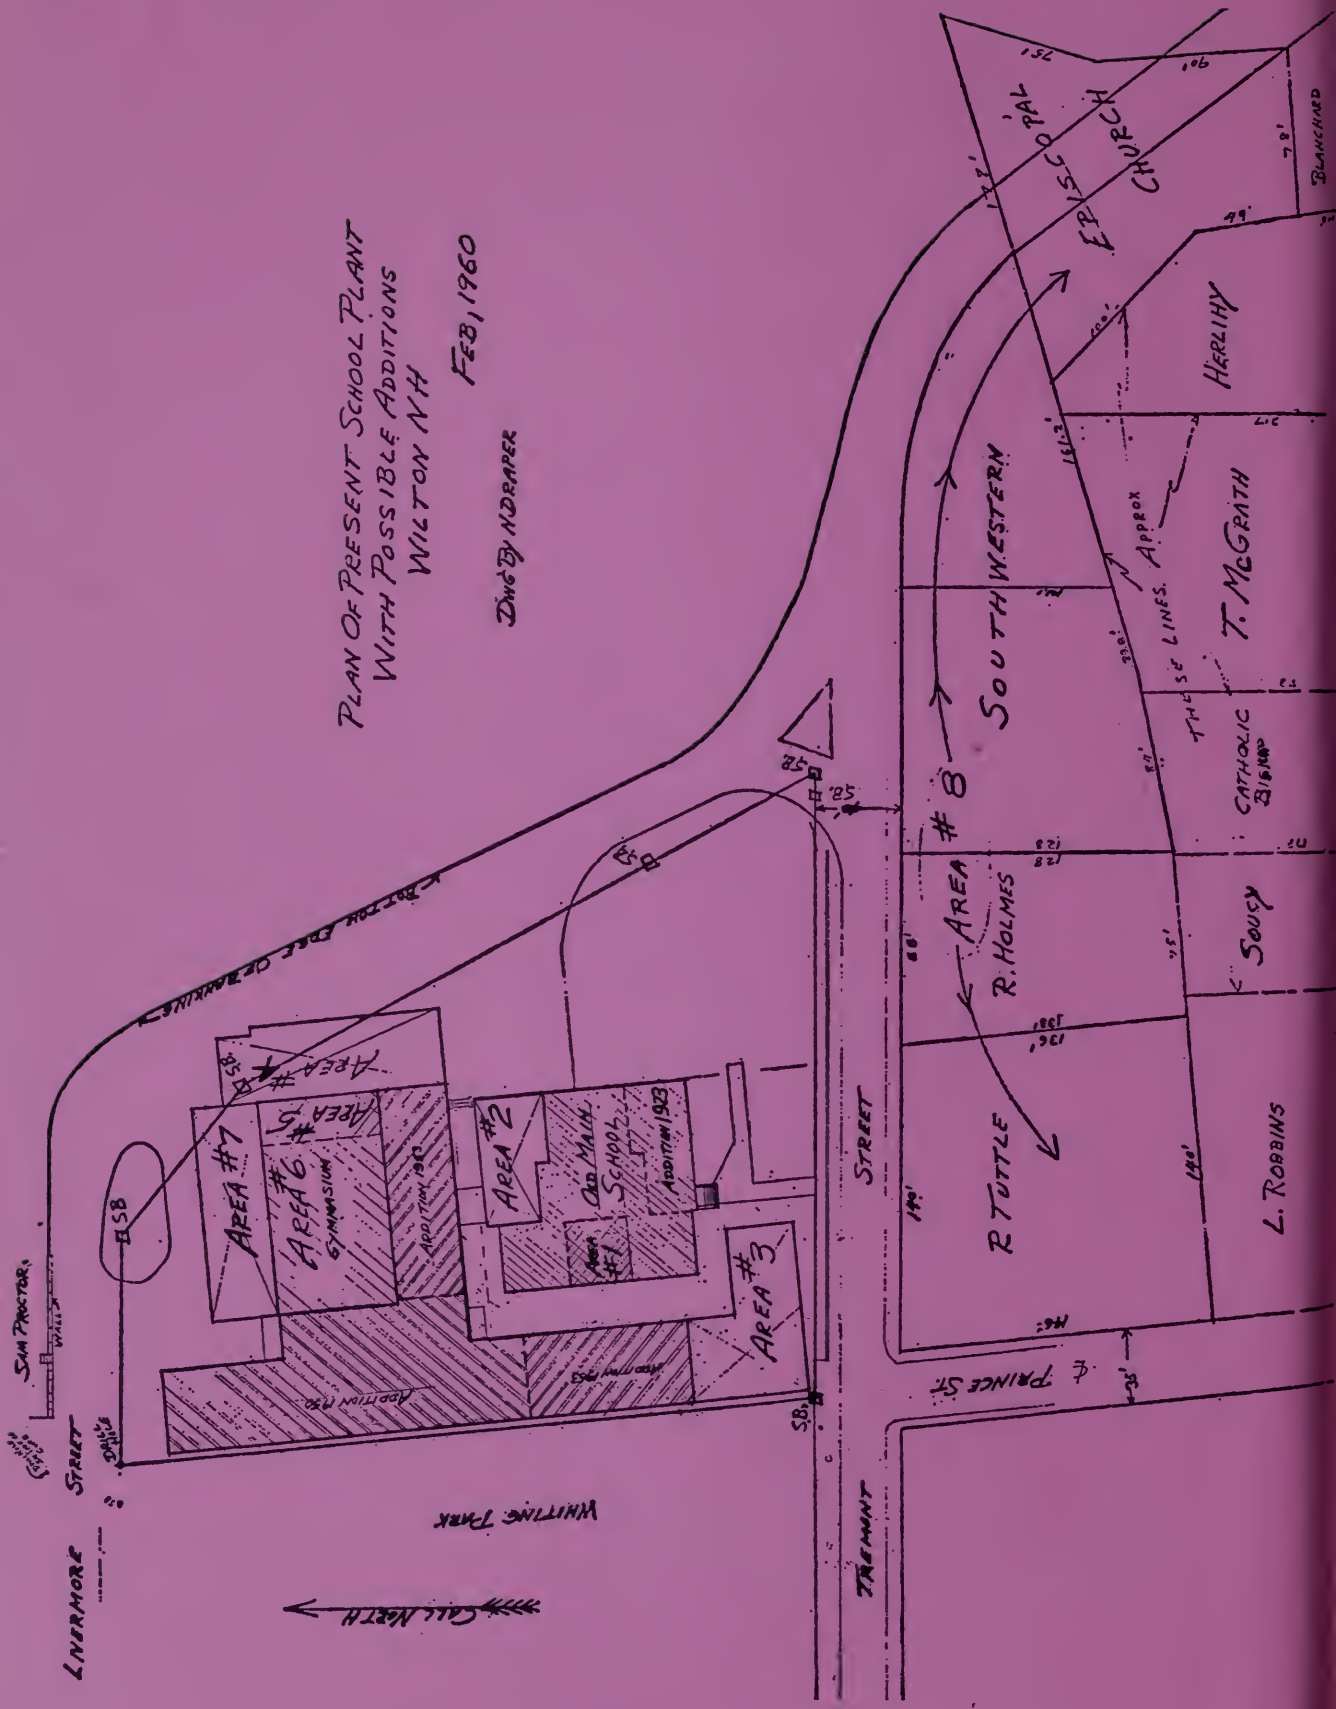

Concerning the operation of Wilton schools, the Committee has the following findings and recommendations to make at this time:

First: With reference to the type of high school program that should be offered, it is recommended that Wilton operate a "comprehensive" high school — as at present rather than restrict the course of studies either to a purely "academic" program or attempt to arrange for Wilton students to be sent to neighboring communities operating comprehensive high schools on a tuition basis.

PLAN OF PRESENT SCHOOL PLANT WITH POSSIBLE ADDITIONS WILTON NH

FEB, 1960

DWG BY H. DRAPER

Second: Concerning the question of accepting tuition students from neighboring towns, it is recommended that the policy be continued even though this might result in major additions to the school plant.

Third: Regarding curriculum, it is felt the program offered must be acceptable to the State Board of Education so that the school will be fully accredited by the State Board without reservation. Since it is a fact that the school curriculum currently offered is acceptable to State standards, it is generally felt that the program is adequate. However, there is a desire to see the program improved, or enlarged, in the field of Fine Arts, Shop and Physical Education.

Fourth: The Committee feels that the School population data and forecast for the next five years, as prepared by the Superintendent, is adequate and accurate and a sound basis on which to plan. This data indicates that over the next three years there will be a reduction in school population — which trend will not reverse until 1963.

The Committee feels that, very likely, a trend will develop for a reduction in tuition students during the next five years because of developments in neighboring communities.

Therefore, it is the opinion of the Committee that there is no requirement for major school construction at this time.

However, it is the opinion of the Committee that during the decade 1960-1970, there will be an appreciable increase in town and school population, so that long-range planning and preparation for expansion of school facilities is necessary.

Fifth: Concerning immediate space requirements, the Committee recommends that AREA No. 1 be developed at this time into a classroom, and therefore strong-

ly commends to the voters the School Board's Warrant Articles No. 10 and No. 11. The development of this waste space — the west main entrance to the old school building — into a teaching station large enough to handle 15 - 20 students, can be done at a minimum cost and will relieve to a degree the pressure on teaching station requirements.

The Committee wishes to direct the attention of the School Administration particularly to the Library, to the end that adequate space and supervision for the operation be provided within the framework of the facilities at hand.

Sixth: Concerning space requirements of the future, a number of possibilities have been considered.

The operation of a two-platoon, or double session system, to avoid major construction, is not recommended.

The development of a program for a completely new high school in a new area is not recommended.

In future planning the following types of spaces that will be required were considered. They are listed below in order of their importance to the Committee.

Classrooms

Laboratories

Library

Shower and Locker Rooms

Shop

Gymnasium

Seventh: For the consideration of possible space additions to the present buildings, a sketch was made and is part of this report. Indicated on this sketch are eight numbered areas described below.

Areas of Possibility

AREA 1. This area within the old main school which would do away with the main entrance door and use part of the main hall, would make one room — giving an area of about 22 ft. by 25 ft. An exit door would still be available. Possible cost: \$5,000 to \$7,000. 550 sq. ft. About \$10 per sq. ft.

AREA 2. This area at the N. E. corner of the old main school has several possibilities, such as having 4 rooms and a shop, or 2 rooms, lab. and shop, etc. This could probably be heated with the boiler in the old main school building. Possible cost: \$80,000 to \$100,000. \$14 to \$18 per sq. ft. 5800 sq. ft. This depends on choice of rooms, etc. A similar addition was made at the S. E. corner about 1923.

AREA 3. This area could be used for 1, 2 or 3 classrooms and would probably require a new heating plant. Possible cost — 3 rooms only — \$60,000. No heating plant in this figure. 3300 sq. ft. at \$18 per sq. ft.

AREA 4. This area could be used for a shop, a room for drafting, and a library. This would probably need a new heating plant. Possible cost: \$50,000, plus a heating plant. 3500 sq. ft. at \$16.50 per sq. ft.

AREA 5. Complete remodeling and enlarging for new shower rooms with modern showers, toilets, drains, new partitions, walls, tile floor, ceiling, lights. etc., plus air conditioner. A little more heat from present plant if needed. Possible cost: \$5,000 to \$8,000. No new heating plant needed. About \$10 per sq. ft.

AREA 6. This area, the gymnasium, could be converted to classrooms (4), and with a new gymnasium built on Southwestern land. Possible cost: \$50,000 to

\$60,000 (for conversion of gym only). Plus library — stage for library.

AREA 7. A. This area on the north side of the gymnasium could be used for 3 classrooms. This would need a new heating plant. Possible cost — no heat — \$56,000. 3700 sq. ft. at \$15 per sq. ft.

B. Or shower, locker and storage room. 20 ft. by 60 ft. 1200 sq. ft. Possible cost: \$18,000 (includes plumbing). \$15 per sq. ft. More heat would be needed.

AREA 8. Four sets of existing buildings with heat and plumbing, and about 2 acres of land. \$55,000 to \$60,000. Some rooms for school rooms, (small-class). Some for rent.

Area 1 is recommended for immediate action in Section 5 of this report.

Areas 2, 3, and 7B, in the sequence as listed, are regarded favorably by the Committee as practical and feasible additions. When the time arrives for decision, a selection between Areas 2 and 3 would have to be made on the basis of actual type and amount of space required, as well as architectural cost estimates.

It appears to the Committee that the poorest facility at the school is the shower and locker room situation, and that future plans should include corrective measures here.

Eighth: The offering of the real estate of Southwestern N. H. Transportation Co. opens a new avenue of thought which appears on the sketch as Area 8. This area adjacent to the school property is, in the opinion of the Committee, the best basis for future expansion of the school.

If Southwestern real estate were acquired now, and

plans laid to acquire the balance of the real estate in Area 8 as it might come on the market, we would be set on a sound course.

In the initial stages of such a program, and until the time when major construction was required, the present buildings could be operated by the School District on a rental basis, and also used in a limited way for school purposes as the need arose.

It is therefore recommended that plans be made and steps be taken to acquire Area 8 over a period of time.

Respectfully submitted by the Committee
as its majority opinion,

JOHN K. WHITING, JR., Chairman
ARTHUR ATWOOD
